## **RESPONSE AND AMENDMENT**

This is in response to the Office Action dated 08/01/01. This amendment is being filed before the three-month period has run. It is kindly requested that the Examiner amend the claims as follows:

- 1. (thrice amended) A routing system for distributing packets in a network, wherein the
- packets originate at a source and are returned to a destination, both source and destination
- external with respect to the routing system, comprising:
  - a plurality of means for transferring packets to a destination and from a source;
